FIG. 13(e) is a cross-sectional view of a device assembly. It shows a base structure 30 with a central channel. A thick, dark, U-shaped component 100 is positioned within this channel. To the left of component 100 is a vertical structure 97. To the right of component 100 is a vertical structure 98. Below component 100, there are two circular features, 101 and 102, which appear to be part of a lower assembly or housing. A small rectangular feature 99 is located between the two circular features. The entire assembly is shown in a cross-section with various layers and components indicated by different line styles and hatching.
